## How to Scan a QR Code on an Android Phone

1. Open the camera app on your phone.
2. Point the camera at the QR code, making sure the code is in the center of the screen.
3. A link should appear on your screen. Tap the link to open it!

If the link doesn't appear:

- Go to Settings on your phone.
- Tap Apps or Camera (depending on your phone model).
- Look for Scan QR Codes and make sure it's turned ON.
- If needed, you can also download a free QR scanner from the Play Store.
